

HARDMIX

Hardmix was born in Brazil, he is a DJ and music producer since 1992 and currently lives in Portugal where he works as a music production instructor at Digipro Academy and European representative partner of LADA - Los Angeles Digital Audio.

Underground house and techno music with strong beats are the main characteristic on Hardmix's sound, however, for places where soft music is required, he explores a deep house style with traces of disco, funky and jazz.

The list of places where Hardmix already played has many clubs and events on America and Europe. Regular gigs in Ibiza, Germany, Netherlands and Italy, music played by important artists and released by different labels in compilations such as "Riva Starr presents In Dubb Vol. 2 - Sonar (Snatch! Records)", "House Of Ibiza (King Street Sounds)" and "Clubology Vol. 3 (Distar Records)", gave Hardmix a privileged position on the global electronic music scene.
